E-mail: ruth.hawk@townoffarragut.org

What you can learn:

- What the typical Farragut-area homeowner can do to be more energy efficient!
- How to retrofit your home to be more energy efficient, including choices for insulation, solar power, windows and more!
- Facts about a most interesting research project, sponsored by the Tennessee Valley Authority and the Department of Energy, of three recently constructed “green” homes. The project found that these homes saved 35-70% on heating costs this winter compared to the typical new Farragut-area home!
- Take home informational pieces on improving energy efficiency with a unique focus on typical Farragut-area homes as well as pieces on local vendors, suppliers and more!
