Farragut Invites Community to Impact Fee Study Informational Forum October 28, 2015 @ 7pm in Farragut Town Hall

FARRAGUT, TN – The Town of Farragut is progressing through a project to study existing and future traffic impact on our road system with the intent to develop an infrastructure fee-based-formula for the Town to use to require impact fees on future development within the Town. These fees will assist the Town with maintaining and/or improving the road system in accordance with our adopted road standards. This study is being led by Duncan Associates of Austin TX in collaboration with The Corradino Group of Nashville TN.

The Town and its consultants will host its second public forum on Wednesday, October 28, 2015 from 7pm – 9pm at the Farragut Town Hall.

At this forum, we will continue the discussion about impact fees in general, provide specific information with regard to the Town's study, philosophy and methodology behind the creating of an impact fee program, and implications for the Farragut community. The forum will conclude with a Q & A session with the consultants and Town staff.

The Farragut Town Hall is located at 11408 Municipal Center Drive across from the Farragut Branch Post Office. For more information about this project, visit www.townoffarragut.org/impactfees or contact Assistant Town Manager Gary Palmer at gpalmer@townoffarragut.org
